MORISS DIN MATIAS

Lipa City, Batangas, Philippines | +63 967 314 2783 | morsmatias15@gmail.com
Portfolio: morsmatias.vercel.app/ | GitHub: github.com/mors-codes

WORK EXPERIENCE

Freelance Developer — Self-employed *June 2025 – December 2025*

- Built web systems and mobile applications on commission using AI-assisted development tools.
- Delivered full-stack web solutions and native mobile apps from requirements through delivery.
- Worked independently across the full development lifecycle with minimal traditional coding.

IT Specialist Intern — Nutech Hardware and Software Solutions *February 2025 – April 2025*

- Developed a responsive project management website using Adalo.
- Integrated Zapier with Gmail to send automated notifications for verified users.
- Improved usability and accessibility across devices.

PROJECT EXPERIENCE

AI Recruiting Pipeline — *n8n, Google Sheets, Gmail, Slack*

- Built an end-to-end hiring automation where candidates apply through a careers site and are screened, scored, and routed without manual review.
- Built using n8n and an AI model, with a webhook-triggered flow that parses resumes, scores fit against the role, and files candidates in a live dashboard.
- Auto-invites strong candidates, stores each resume in Drive with a shareable link, and posts every decision to Slack.

AI Finance Operations Platform — *Make.com, QuickBooks Online*

- Built an accounts-payable automation that reads invoices from email, extracts the data with AI, and creates bills in QuickBooks.
- Built using Make.com and an AI model, with a multi-stage validation cascade that flags duplicates, PO gaps, and totals that don't match line items.
- Routes invoices by amount for approval and generates dynamic line items so any invoice size posts correctly to the accounting system.

AI Sales Lead-Gen Pipeline — *Zapier, HubSpot, Slack*

- Built a lead qualification system where inbound leads from a landing page are scored, enriched, and routed by buying intent in real time.
- Built using Zapier and an AI model, branching hot/warm/cold leads with multi-path logic into HubSpot with linked contacts and deals.
- Alerts sales on hot leads via Slack and triggers the right personalized follow-up for each tier automatically.

EDUCATION

Associate in Computer Technology **2023 - 2025**

De La Salle Lipa *Lipa City, Batangas*

- Third Honor Awardee (SY 2023-2024, 2nd Semester)
- Relevant coursework in Database Management, System Analysis and Design, and User Interface Design.
